How to Construct a High Tunnel/Hoop House Workshop

**Lunch will be
provided**

Date: March 9, 2013

Location: Waller, TX (Exact Address given upon R.S.V.P)

Time: 9 a.m. -2pm.

Join us in gaining hands on experience on constructing a high tunnel greenhouse. High tunnels are less expensive greenhouses that can be used to extend growing seasons and protect vegetables from frost. Dr. Joe Masabni, Texas A & M AgriLife Extension State Vegetable Specialist and Dr. Mengmeng Gu, Texas A & M AgriLife Extension Professor and Ornamental Horticulturist will be providing expert knowledge on high tunnel construction.

Seating is limited. Call Prairie View Cooperative Extension office at (936) 261- 5138 to R.S.V. P.

Cost: \$10.00
